## SOLO® MONOCULAR

From bowhunters to backpackers, the Solo® Monocular delivers powerful magnification in an ultra-compact design that's made for anyone who needs to pack light. Slip it into your pocket, clip it securely on your pack, and trust it to bring the details closer while standing up to tough field use.

Images are for representation only.  
Product may vary slightly from what is shown.

## BASIC OPERATION

### Adjust the Eyecup

The Adjustable Eyecup on the Solo® twists up and down so any viewer can see the full field and enjoy comfortable viewing – with or without eyeglasses. When not using eyeglasses or sunglasses, it is recommended to keep the Eyecup fully extended. For best viewing when wearing eyeglasses, twist Eyecup down.

### Adjust the Focus

To adjust the focus, rotate the Image Focus Wheel until the subject comes crisply into view.

#### Image Focus Wheel

Rotate to focus image

## ACCESSORIES

### Utility Clip (36mm only)

The versatile Utility Clip allows quick attachment of the Solo® to pocket edges or other equipment.

### Lanyard

The Lanyard can be worn around the neck or used as a safety cord when carrying it by the Utility Clip.

#### Attach the Lanyard in a few simple steps:

1. Push the loop end of the Lanyard through the Attachment point.

2. Take the opposite end of the Lanyard and put it through the loop.

3. Cinch the loop tight.

### Soft Carry Case

The Soft Carry Case slips off for an easy carry in the field and provides protection for the monocular when not in use.

**Note:** If the optic is exposed to moisture, keep the caps off and allow the optic to dry out completely before putting it in the case for storage.

## MAINTENANCE

### Cleaning

Your Solo® monocular requires very little routine maintenance other than periodically cleaning the exterior lenses. The exterior may be cleaned by wiping with a soft cloth. When cleaning the lenses, be sure to use products that are specifically designed for use on coated optical lenses.

- Be sure to blow away any dust or grit on the lenses prior to wiping the surfaces.
- Using your breath, or a very small amount of water or pure alcohol, can help remove stubborn dried water spots.

### Lubrication

All monocular components are permanently lubricated, so no additional lubricant should be applied.

### Storage

If possible, avoid storing your monocular in direct sunlight or any very hot location for long periods of time.

**Note:** Do not attempt to disassemble any monocular components. Disassembling of the monocular may void warranty.

**CAUTION:** Monoculars are not intended for looking at the sun or other intense light sources. Such viewing could damage the retina and cornea of your eyes – even to the point of causing blindness.

## NOTICE

### Virtual Patent Marking Notice By Vortex Optics

This product may be protected by patents in the U.S. and elsewhere for Vortex Optics. <http://vtx.legal> website is provided to satisfy the virtual patent marking provisions of various jurisdictions including the virtual patent marking provisions of the America Invents Act and provide notice under 35 U.S.C. §287(a).
